

Watershed Coordination

Priority Actions

Action 21: Promote and support efforts of local watershed programs to improve water quality and restore habitat within the Delta and Delta tributary watersheds. Efforts may include coordination, incentives, and/or other assistance.

Action 31: Identify and implement measures to address potential toxicity in water and sediment by conducting toxicity testing and toxicity identification evaluations and/or other appropriate methods. Seek to coordinate with other programs.

Other Actions

Action 9: Reduce the vulnerability of Delta water quality to salinity intrusion through implementation of the Delta Long-Term Protection Plan (including levees O & M).

Action 29: Improve water quality on the Sacramento and San Joaquin rivers and tributaries by restoring or improving riparian habitat.

Action 30: Combined into Action 29.
